

PeelGrid® Grid Coated Paper

As an innovative producer of healthcare packaging, Huhtamaki has launched PeelGrid® – a revolutionary alternative to medical grid coated paper.

The improved processability and the sealing against various materials provides value added to your product. The result: a cost optimized way of sterile medical packaging.

Huhtamaki

Optimized material, many advantages

PeelGrid® can be used as pouch material and as lidding film. The Huhtamaki material is Toluene free and is providing cost saving and increased processability.

Standard features

- Microbiological barrier for sterile products
- Suitable for sterilisation by ethylene oxide and irradiation
- Meets the requirements of ISO 11607-1
- Seals to a variety of substrates
- Fibre-free peelability
- Not resealable

What makes the difference?

- Improved processability
- Better hottack
- Toluene free
- Cost and material reduction
- One solution for all sizes
- sealing also against PP, PVC and PET
- Global supply incl. corresponding sealing films
