

QUALITY AND PRODUCT SAFETY POLICY

As ELIF PLASTIK AMBALAJ SAN. VE TIC. A.S. (a Huhtamaki Company), operating in the flexible packaging industry, we make the following commitments in order to provide safe, high-quality, and sustainable flexible packaging products that protect consumer health and comply with national and international regulations and customer expectations;

- To follow modern and technological developments in compliance with legal requirements, international standards, and customer specifications,
- To manufacture timely, cost-effective, and reliable products in order to meet customer needs and expectations,
- To cooperate with appropriate stakeholders who meet quality and product safety requirements,
- To provide the necessary resources to continuously improve machine and equipment adequacy by closely following technological innovations,
- To ensure personnel competence in order to continuously improve the workforce and equipment in parallel with technological developments,
- To increase awareness of the quality and product safety culture through training and to make this a corporate culture,
- To ensure the continuity of Good Manufacturing Practices (GMP) and enhance their effectiveness,
- To ensure the implementation and maintenance of all measures for product fraud prevention and food defense in line with GFSI-recognized standards,

We are committed to providing high-quality and hygienic products, fulfilling customer requirements, legal and international regulations, and the requirements of ISO 9001, BRCGS Packaging Materials, RecyClass, Flustix and ISCC Plus standards, and to continuously improving the effectiveness of our system.
