

Brochure

Sustainable, efficient and eco friendly

“Helping great
products reach more
people more easily”

Huhtamaki

***“ We help you to meet
your sustainability
goals ”***

***We help you to meet your
sustainability goals***

We strive to develop more sustainable packaging solutions whenever practically possible. Sustainability is an integrated part of our business. For us, sustainability means environmental protection, social equity, and economic efficiency.

“ With continued proven quality and food safety, it is the new, striking and creative answer your brand deserves.”

We believe packaging can achieve

- Reduced resource usage and product wastage
- Lowered health risks
- Improved economic efficiency.

We have a broad range of high quality packaging solutions for modern foodservice, vending and fast moving consumer goods.

Our technologies include paper and plastic forming, so you can always find the right solution to fit your specific needs. Our packaging is proven and tested in use by many of the world's leading quick service, fast casual and coffee chains.
