Sustainable to go

With the right packaging choices, the environmental impacts of making safe food accessible to the world's growing population can be reduced. Across industries, consumers are showing increasing interest in sustainability and increased responsibility. Huhtamaki continuously invests, innovates and collaborates to improve the sustainability of our packaging: from design and sourcing to manufacturing.

Future Smart™

by Huhtamaki

Huhtamaki Future Smart™ paper cup is the first 100% renewable paper cup made from plants.

Raw materials from PEFC™ certified forests

Plant-based PE- coating

Recyclable

The world is changing for the better.

New materials and technologies lead to new solutions that significantly reduce dependence on fossil oil-based materials and offer more consumer choice and chance to enhance brand experience.

BioWare

BioWare is a Huhtamaki proposal for those who want to emphasize the pro-ecological nature of their company or brand. BioWare is a commitment to the future of our planet. These are high quality products that are 100% biodegradable and compostable.*

**BioWare products undergo biodegradation completely in optimum conditions in composting facilities (60°C+ 95% humidity in 50-70 days)*

BioWare cups are certified by European standard EN13432.

Food to go

As the lines between snacks, meals and traditional meal times get blurred, packaging becomes a significantly more important consumer touchpoint, playing a pivotal role in delivering great dining experiences for various food-to-go occasions in a fast, efficient and responsible manner. As the choice of fast, nourishing and flexible eating options become important for people, we realise that it becomes equally important to offer a versatile range of high-quality food packaging products. Our range of products enables high street brands, cafes, takeaway units, caterers and other eating out establishments to serve delicious tempting food options to eat in or take away.

Customisation

Getting your brand out to the public and grabbing their attention is key to bringing in new clientele. Featuring the logo of your business is a great way to spread the word. When people walk around, the visuals and messages on the food packaging become walking billboards for the business. In today's social media savvy world, it also becomes important to highlight elements such as QR codes with our Aitone™ cups, linked to marketing campaigns or social media handles to let people figure out where the eye-catching coffee cup or delicious looking meal comes from.

Whatever your business size or budget, there are many ways to highlight your brand or messages on food packaging products. From custom printed artworks to rubber stamped logos and stickers, many foodservice operators use custom printing as a tool to set themselves apart and get noticed. Our manufacturing capabilities ensure that no idea is too difficult for us to transform the look and feel of your packaging. Coffee cups, wraps, bags and cartons can be custom printed to showcase your brand and grab the attention of customers.
