

Envirable[™] molded fiber bowls & lids

Envirable[™] molded fiber bowls offer a variety of options to serve, carry out or deliver hot and cold foods with common lids to increase efficiency.

Huhtamaki

Molded fiber bowls & lids

- Maintains integrity of food during transit – molded fiber composition acts as an insulator to keep hot foods hot and cold foods cold.
- Stackable for easy delivery and take-home portability.
- Available in popular industry sizes to accommodate a variety of menu items.
- Clear lids fit securely and provide food visibility.
- Customizable embossing available on lids.

Sustainable Features

- Made from a mix of bamboo and bagasse, a byproduct of the sugar cane harvesting process.
- BPI-certified compostable. Compostable in a commercial compost facility which may not exist in your community. Not suitable for backyard composting.
- Produced with natural fibers from annually renewable resources.
- Lids made from recyclable PET #1. Check locally; may not be recycled in your area.
